Camden Council
Bush Fire Prone Land

Bushfire prone land dataset contains two sets of information. One is bushfire vegetation, and the other is bushfire vegetation buffer. The definition of bushfire vegetation categories is as follows:

1) Bushfire Vegetation Category 1 refers to forestk woodlands, heath, wetlands, etc

2) Bushfire Vegetation Category 2 refers to grasslands

Buffer was created based on the bushfire vegataion, with the buffering distance being 100 meters for vegetation cateory 1, and 30 metres for category 2.

Vegetation excluded from the bushfire vegetation categories are managed grasslands, managed botanical gardens, agricultural lands and mangorves.
Areas of national parks and state forests estates are identified as bushfire vegetation category 1.

Legend

- Bush Fire Prone Land - Vegetation Category 1
- Bush Fire Prone Land - Vegetation Category 2
- Bush Fire Prone Land -Vegetation Buffer 100m & 30 m
