PETS & PEOPLE

THINGS TO DO FOR YOUR PET WHEN YOU MOVE HOUSE

When people move house they often forget that information about their pets also needs changing in case your pet becomes lost or injured.

Your pet, once microchipped, is placed onto the Companion Animal Register and this information is accessed if your pet becomes lost. Here are important steps to ensure your pet's details are correct and up to date.

1. Make sure your pet is microchipped. Your local vet can assist with this.
2. Once your pet is microchipped, visit Council to have your pet lifetime registered.
3. Make sure your pet is wearing a collar and name tag with an up-to-date contact number.
4. Change your contact details with Council to ensure your new address and phone number are up to date. Forms can be obtained from Council and online at Council's website.
5. If you no longer own a microchipped pet or your pet has recently died, contact Council for assistance with updating your details.

Council must be notified within 14 days of any change that occurs in the registration information for your pet.

IDENTIFICATION AND REGISTRATION

Companion animals (dog or cat) must be microchipped from the time the animal is 12 weeks old by a vet or animal welfare organisation.

Your pet must be registered with Council by six months of age.

bit.ly/camdenanimalsandpets

This is a separate process to microchipping and can be completed at Council's Customer Service Centres, 70 Central Avenue, Oran Park between 8.30am-5pm, Monday to Friday.

Pets can be a wonderful addition to any family, but the responsible care and management of animals by their owners is a duty that must be taken seriously to ensure safety and wellbeing of our community.

OFF-LEASH AREAS

Get active outdoors and take your dog for a walk at one of ten off-leash parks located throughout the Camden area including:
