

CAMDEN COUNCIL MEDIA STATEMENT

29 February 2016

Results of Oxley Street Car Park Consultation

Camden Council consulted with the community on the Oxley Street car park between 11 November and 16 December 2015 to gather their preference on the appearance of the materials, window openings and colour.

Following an independent analysis, the results show a preference for:

Material: Brick

Brick Colour: Murray Grey

Window Treatment Option: Leave Open

Column Treatment Option: Climbing Plants

A Development Application for the car park will be lodged with Council in early March, this will include the community's preference for the appearance. The community will have the opportunity to comment on the Development Application when it is publicly exhibited.
