## Indoor swimming facilities upgraded

Mt Annan Leisure Centre's aquatic facilities have reopened to the public after some maintenance works to renew the amenities.

"These works are part of a broader commitment of Council to provide high quality recreational facilities and support the community to achieve a healthy lifestyle," said acting Mayor Cr Theresa Fedeli.

"Renewing the pool and the amenities will make this a lovely place for people to exercise during the cooler months and year round," Cr Fedeli said.

The aquatic facilities include an eight lane, 25 metre pool, a 15 metre recreation pool, leisure pool, spa, sauna, steam room and waterslide.

The improvement works included installing new pumps for the filtration system and renovating the change rooms to include new showers, taps, sinks, floor and wall tiling, seating and cubicle doors.

The water temperature is now at its optimum levels of 28 degrees for the comfort of patrons.

Work continues on the \$14 million leisure centre upgrade and expansion with the construction of new amenities, multipurpose sports hall, the expansion of the child care facilities, additional car parking and upgrades to the entry foyer, kiosk and change rooms are all well on track.

Details are available on Council's website, [www.camden.nsw.gov.au](http://www.camden.nsw.gov.au).
