

Rating Year 2021/2022

APPLICATION FOR FARMLAND RATING

For land to be categorised as Farmland for rating purposes it must satisfy the criteria as set out in Section 515 of the Local Government Act 1993

“**farm land**” means a parcel of rateable land which is valued as one assessment and the dominant use of which is for farming which:-

- (a) has significant and substantial commercial purpose of character; and
- (b) is engaged for the purpose of profit on a continuous or repetitive basis. (whether or not a profit is actually made).

“**farming**” means the business or industry of grazing, dairying, pig-farming, poultry farming, viticulture, orcharding, beekeeping, horticulture, vegetable growing, the growing of crops of any kind, forestry, or oyster or fish farming within the meaning of the Fisheries and Oyster Farms Act 1935, or any combination of those businesses or industries.

“**Commercial-Commerce**” means the interchange of goods or commodities especially on a large scale

“**Business**” means the purchase and sale of goods and services in an attempt to make a profit.

The following questions have been structured to help you provide Council with the information required to evaluate your eligibility to receive Farmland rating. Your assistance in providing as much detail as possible would be appreciated.

The form consists of three parts:-

- (a) Property Information
- (b) Dominant use of the Land
- (c) Significant & Substantial Commercial Purpose or Character

Incomplete application forms will be returned to the applicant. It should be noted that all information contained in the application will be dealt with in the strictest confidence.

“**Drought Relief**” As part of the Farmland Policy Council would assist ratepayer/farmers in relation to rates and charges during the times of a Drought.

“**Drought**” The definition of drought is a period of below-average precipitation in a given region, resulting in prolonged shortages in the water supply, surface water or ground water. A drought could last for month or years.

To assist Council in determining if an area is in drought access should be made of the Department of Primary Industries website and in particular the Combined Drought Indicator. There are six stages of drought and assistance will be made when the indicator shows Camden LGA is in the Intense Drought phase.

Intense Drought is where rainfall, soil water and plant growth are below the 5th percentile. Ground cover is very low, soil moisture stores are exhausted and rainfall has been minimal over the past 6-12 months.

In the event of an Intense Drought which effects primary producers in the Camden LGA and could continue for extended periods, Council would monitor the impact on individual farmers in relation to loss of stock, and damage to crops.

Council has adopted a Farmland Assistance Package

The Drought Relief Financial Assistance Package will include the following initiatives:

- Arrangements to pay rates over an extended period of time. Owners will be required to enter into a deed of agreement if rates remain outstanding for five (5) years
- No Interest payable or legal action would be taken to recover amounts outstanding from 2018/19 rating year
- No legal action for the recovery of outstanding amounts, while the area is declared in drought.
- Where stock levels or crop areas fall below the farmland rating policy thresholds, the property will remain eligible for farmland rating
- The above initiatives would continue for twelve months after the area is no longer declared in drought by the DPI

In the event of an extended period of assistance Council would require a signed agreement with the ratepayer, detailing the rates and charges overdue and that the amount owing should be paid once normal farming activities resume or the land is sold.

Under Drought conditions, the minimum area under cultivation or the minimum stock numbers could be reduced for a period.

Procedure

Council has 30 days to act on receipt of any application. An assessment is made and if an inspection is required, arrangements will be made via telephone to meet and review the details. If approved, Council will notify you in writing and the appropriate adjustment made to your rate account.

Notification will be sent if the application is declined stating the reason why. If you are not in agreement with Council's decision, a written request for a review can be made stating the reasons why. The application will be reviewed again and the property will be inspected.

If you are not satisfied with Council's review of the categorisation you may appeal to the Land & Environment Court of NSW within 30 days. You can contact the court on 02 9113 8200 to find out how to lodge an appeal.
