LOCAL TRAFFIC COMMITTEE
18 September 2018

Dear Sir/Madam

You are advised that the next Local Traffic Committee is scheduled for 18 September 2018, commencing at 9.30am at Council Office, 70 Central Avenue, Oran Park.

Local Traffic Committee members are issued with a full set of business papers of proposed items with supportive information where required. Site inspections are recommended to help minimize the Committee’s business and improve member’s understanding of the issues reported in this Agenda.

Should you require further information prior to the meeting please contact Council’s Traffic Engineer, Mr Sophak Eng on (02) 4645 5026.

Your sincerely

Sandra Kubecka
ACTING DIRECTOR COMMUNITY ASSETS
Background

The Roads and Maritime Services (RMS) is legislated as the Authority responsible for the control of traffic on all NSW Roads. In order to deal with the large number and range of traffic related matters, RMS has delegated certain aspects of the control of traffic on local roads to Council (under the Transport Administration Act 1988). To exercise this delegation, Councils must establish a Local Traffic Committee (LTC) and obtain the advice of the RMS and NSW Police.

Role of the Committee

The LTC is primarily a technical review and advisory committee which considers the technical merits of proposals and ensures that current technical guidelines are considered. It provides recommendations to Council on traffic and parking control matters and the provision of traffic control facilities and prescribed traffic control devices for which Council has delegated authority. The Committee also advises on traffic matters arising from development applications (regulatory signage and line marking only), special events and road safety issues.

Committee Delegations

The LTC has no decision-making powers. Council must refer all traffic related matters to the Local Traffic Committee prior to exercising its delegated functions. Matters related to State Roads or functions that have not been delegated to Council must be referred directly to the RMS or relevant organisation.

The Committee provides recommendations to Council. Council is not bound by the advice of its LTC. Council can choose not to proceed with a recommendation of the Local Traffic Committee by not endorsing it at a Council Meeting where the minutes are presented.

Should Council wish to act contrary to the advice of the Committee or if that advice is not supported unanimously by the Committee members, Council must write to both the RMS and NSW Police, who may then choose to appeal to the Regional Traffic Committee within 14 days.

Committee Membership

The LTC is made up of four formal voting members. The members are as follows:

- one representative of Council as nominated by Council;
- one representative of the NSW Police from each Local Area Command (LAC) within the LGA;
- one representative from the RMS; and
- the local State Member(s) of Parliament (MP) or their nominee.

Where the Council area is represented by more than one MP or covered by more than one Police LAC, representatives are only permitted to vote on matters within their electorate or LAC.
The role of the four voting members is to:

- review the information provided to the committee.
- advise whether or not the technical justification of facilities meet the relevant guidelines and standards (facilities include lines, signs and devices).
- ensure that the recommendations conform to the matters being referred to and should be recommended for Council to endorse.

In relation to this:

I. The council representatives and Local Members of Parliament (or representative) typically consider the interests of Council and its constituents. Both representatives on the Committee provide valued local knowledge.

II. The Road and Maritime Services (RMS) representative provides advice on compliance of the matters with regards to various standards and guidelines.

III. The NSW Police representative provides input on implications for the road network, particularly where a proposal may affect road safety.

The Committee may also have additional informal (non-voting) advisors. These may include:

- Council Officers
- Chamber of Commerce representatives
- Bus Operator representatives
- Other representatives as determined from time to time.

The informal advisors are not required to attend every LTC meeting. Their attendance is only necessary when items appear on the Agenda which affect their area of expertise or responsibility. The informal advisors are not entitled to a vote.

Please note there is no public gallery for these meetings.

**LTC Business Paper**

Council is responsible for preparing an LTC agenda and circulates to all formal members and informal advisors of the committee approximately one week prior to the meeting. This will allow members to fully consider the issues and determine their response on each item.

Council encourages each member of the LTC to undertake a site visit prior to considering any proposal. Site visits may be undertaken individually or organised with Council's Traffic Engineer(s).

**BUSINESS WITHOUT NOTICE**

**DATE OF NEXT LOCAL TRAFFIC COMMITTEE MEETING - TUESDAY 16 OCTOBER 2018**

**INFORMAL ITEMS**
The Local Traffic Committee report dated 19 June 2018 was presented to the Council meeting on 24 July 2018. Council adopted the Local Traffic Committee’s recommendations without amendment.

RECOMMENDED

That the adoption by Council of the Committee’s recommendations dated 19 June 2018 be noted.
LOCAL TRAFFIC COMMITTEE

SUBJECT: STATUS OF LOCAL TRAFFIC COMMITTEE RECOMMENDATIONS
AND ACTIONS
FROM: Manager Traffic, Depot & Building Services
TRIM #: 18/286761

Work instructions have been issued for recommendations of the Local Traffic Committee from the meeting on 19 June 2018. Further reports on Downes Crescent – Traffic Island Modification and the Criterium Cycle Racing Special Event application are presented in this Agenda.

RECOMMENDED

That the status report on outstanding Local Traffic Committee recommendations and actions be noted.
LOCAL TRAFFIC COMMITTEE

LTC03

SUBJECT: CAMDEN VALLEY WAY, NARELLAN - TRAFFIC SIGNALS MODIFICATION AT THE GRAHAMS HILL ROAD / RICHARDSON ROAD INTERSECTION

FROM: Manager Traffic, Depot & Building Services

TRIM #: 18/188577

PURPOSE OF REPORT

To seek Local Traffic Committee concurrence for the installation of signage, linemarking and devices associated with modified traffic signals at the intersection of Camden Valley Way, Grahams Hill Road and Richardson Road, Narellan.

BACKGROUND

Council is undertaking an upgrade of the intersection on Camden Valley Way at Grahams Hill Road and Richardson Road. The purpose of this report is to seek concurrence from the Local Traffic Committee for the installation of signage, linemarking and devices associated with these works.

MAIN REPORT

The Camden to Narellan Corridor Upgrade is made up of a number of separate projects between Camden and Narellan, designed to improve road network operation, journey times, safety and travel reliability for residents, employees and visitors in the area.

Recent studies have indicated that the intersection of Camden Valley Way, Grahams Hill Road and Richardson Road in Narellan requires enlarging to safely manage existing and future traffic. On behalf of Camden Council, Acor has undertaken a detailed design of traffic signals at the intersection, incorporating:

- Realignment of Grahams Hill Road facilitating through traffic from Richardson Road;
- Establishment of two entry lanes on the Grahams Hill Road leg, facilitating simultaneous right turning filtering with Richardson Road;
- Widening of lanes on Camden Valley Way and extension of right turning lanes.

Signage and linemarking plans (Drawing Number: C17.01, C17.02, C17.03, C17.04, C17.05 and C17.06, REV.1) have been prepared by Acor as detailed in Attachment 1.

The traffic signal plan has been approved by Roads and Maritime Services Network Operations.

FINANCIAL AND ASSET MANAGEMENT IMPLICATIONS

The intersection upgrade is being funded through a grant from the Western Sydney Infrastructure Plan Local Roads Package accepted by Council on 22 March 2016.
CONCLUSION

Detailed design has been undertaken for the upgrade of the intersection of Camden Valley Way, Grahams Hill Road and Richardson Road and it is recommended that the Committee supports the associated signage, linemarking and devices.

RECOMMENDED

The Local Traffic Committee recommends that Council approves, at the intersection of Camden Valley Way, Grahams Hill Road and Richardson Road, Narellan, the signage, linemarking and devices associated with the upgrade of the intersection detailed in Drawing Number C17.01, C17.02, C17.03, C17.04, C17.05 and C17.06, REV.1.

LOCAL TRAFFIC COMMITTEE

SUBJECT: HILL STREET AND BROUGHTON STREET, CAMDEN - CENTRELINES AND EDGELINES
FROM: Manager Traffic, Depot & Building Services
TRIM #: 18/230298

PURPOSE OF REPORT

To seek Local Traffic Committee concurrence for the installation of centreline and edgeline markings along Hill Street and a section of Broughton Street, between Hill Street and John Street, Camden.

BACKGROUND

Community concerns have been raised about motorists not maintaining their lane and speeding along Hill Street and the adjoining section of Broughton Street in Camden CBD. Linemarking measures are proposed to assist in addressing these concerns.

MAIN REPORT

Hill Street is a local road in Camden CBD which is 12.7 metres wide with 2-hour parking permitted on both sides of the road. There are existing disability parking and motorbike parking bays at the northern end, near the intersection with Argyle Street. A 15-metre-long double barrier (BB) line at the northern end of Hill Street requires resurfacing.

Hill Street meets Broughton street at a 90-degree bend. There is an existing double barrier (BB) line restriction around the corner of these roads – 44 metres in length – but this has become faded. Broughton Street which is 12 metres wide between Hill Street and John Street and has unrestricted parking on both sides of the road. Both streets are heavily parked during the day.

It has been reported that motorists are not maintaining their lane and posing a road safety concern for oncoming vehicles. Also, the relatively wide roads encourage motorists to speed.

It is recommended that the double barrier centrelines are remarked and dashed centrelines (S1) and edgelines are installed along these sections of road to address speeding and delineation concerns. 3.2-metre-wide travel lanes would be maintained, widening around the corner.

Community consultation was undertaken and three responses were received. All the responses were in favour of the proposal.

FINANCIAL AND ASSET MANAGEMENT IMPLICATIONS

It is proposed that the cost of installation be funded from the RMS Block Grant (Traffic Facilities Component) for the 2018/19 financial year at an approximate cost of $3,000.
CONCLUSION

Concerns have been raised regarding delineation and speeding concerns along Hill Street and a section of Broughton Street, Camden and it is proposed to implement centreline and edgeline marking.

RECOMMENDED

The Local Traffic Committee recommends that Council approves centrelines (BB and S1) and edgelines (E1) in Hill Street and Broughton Street, between Hill Street and John Street, Camden.

LOCAL TRAFFIC COMMITTEE

SUBJECT: IRONBARK AVENUE, CAMDEN - CENTRELINES AND YELLOW EDGELINES

FROM: Manager Traffic, Depot & Building Services
TRIM #: 18/285035

PURPOSE OF REPORT

To seek Local Traffic Committee concurrence for the extension of double centrelines and installation of yellow edgelines along Ironbark Avenue, Camden and installation of double centrelines along Belar Road.

BACKGROUND

Concerns have been raised regarding vehicles parking close to the intersection of Ironbark Avenue with Belar Road. There have also been road safety concerns raised regarding motorists traveling along Ironbark Avenue.

MAIN REPORT

Ironbark Avenue in Camden is a 12.7-metre wide local road. There are existing double centrelines on the northern section on approach to the intersection with the Old Hume Highway and at the intersection with Dobroyd Avenue. There is unrestricted parking along both sides of the road which has a default speed limit of 50km/h.

Community concerns have been raised regarding vehicles parking close to the intersection of Ironbark Avenue with Belar Road obstructing sight lines. There have also been concerns raised regarding delineation and motorist behaviour along Ironbark Avenue, exacerbated by its width and accesses to commercial properties. It is therefore proposed to implement No Stopping restrictions on the approach and departure of the intersection in the form of yellow edgelines. It is also proposed to implement double centrelines along Ironbark Avenue to ensure delineation and address road safety concerns.

A consultation was undertaken adjacent owners and occupants regarding the proposed line marking. Two responses were received, both in support of the proposal.

FINANCIAL AND ASSET MANAGEMENT IMPLICATIONS

It is proposed that the cost of the linemarking will be funded from the RMS Block Grant (Traffic Facilities Component) for the 2018/19 financial year at an approximate cost of $1,400.

CONCLUSION

Concerns have been raised regarding driver behaviour along Ironbark Avenue and vehicles being parked close to the intersection of Belar Road with Ironbark Avenue and it is recommended that the Committee supports the installation of the double centrelines and yellow edgelines to help address the issues.
RECOMMENDED

The Local Traffic Committee recommends that Council approves in Ironbark Avenue, Camden:

i. double barrier (BB) centrelines for 153 metres;
ii. double barrier (BB) centreline along Belar Road for 10 metres; and
iii. yellow edgelines at the intersection of Ironbark Road and Belar Road.

LOCAL TRAFFIC COMMITTEE

SUBJECT: SIR WARWICK FAIRFAX DRIVE, HARRINGTON PARK - CENTRELINE MARKING
FROM: Manager Traffic, Depot & Building Services
TRIM #: 18/285497

PURPOSE OF REPORT

To seek Local Traffic Committee concurrence for the installation of centreline marking along Sir Warwick Fairfax Drive, Harrington Park.

BACKGROUND

Community concerns have been raised regarding motorists not keeping left and speeding along Sir Warwick Fairfax Drive, Harrington Park.

MAIN REPORT

Sir Warwick Fairfax Drive is a 7.8-metre-wide primary access road in Harrington Park that runs between Camden Valley Way and Harrington Parkway. There are four roundabout intersections along its length. There are intermittent sections with double barrier centrelines on the approaches to the roundabouts and two slow points (median islands). Parking is unrestricted and the road has the default general urban speed limit of 50km/h.

Council officers investigated the site and noted that delineation is a matter of concern that needs to be addressed. To help address these concerns it is proposed to install 835 metres of dashed (S1) separation centreline between the roundabouts at Hambledon Circuit and Harrison Avenue. On street parking would not be affected by the linemarking.

Public consultation has been undertaken with affected owners and occupiers and eight responses were received. Six respondents supported the proposal whilst two opposed. Both respondents that opposed requested indented parking bays rather than centreline marking.

FINANCIAL AND ASSET MANAGEMENT IMPLICATIONS

It is proposed that the cost be funded from the RMS Block Grant (Traffic Facilities component) for the 2018/19 financial year at an approximate cost of $1,500.

CONCLUSION

Concerns have been raised regarding driver behaviour in Sir Warwick Fairfax Drive, Harrington Park, and it is recommended that the Committee supports linemarking to help address the issue.
RECOMMENDED

The Local Traffic Committee recommends that Council approves on Sir Warwick Fairfax Drive, Harrington Park, 835 metres of separation (S1) centreline between Harrison Avenue and Hambledon Circuit.

LOCAL TRAFFIC COMMITTEE

SUBJECT: DOWNES CRESCENT, CURRANS HILL - TRAFFIC ISLAND MODIFICATION

FROM: Manager Traffic, Depot & Building Services

PURPOSE OF REPORT

To seek Local Traffic Committee concurrence to remove an existing traffic island on Downes Crescent, Currans Hill.

BACKGROUND

An existing traffic island in Downes Crescent makes it difficult to enter and exit from adjacent residential driveways. It is therefore proposed to remove the island since a replacement island is not supported by RMS.

MAIN REPORT

Downes Crescent is a 7.6m wide local access road in Currans Hill. A pedestrian refuge island was constructed as part of the subdivision outside house number 36 that is not in line with current standards. It is not possible to redesign the island to current standards due to the narrowness of the road and the location of driveways and stormwater pits.

It was recommended that the existing facility be replaced with a smaller median island which would continue to give a traffic calming benefit whilst facilitating access to residences. Owners and occupiers adjacent to the proposal were consulted and one response was received in support of the proposal.

The matter was considered by the Local Traffic Committee held on 19 June 2018, however it was deferred on a request of RMS Representative for further technical consideration.

The RMS Representative has subsequently advised that RMS would not support the proposed median island, citing concerns that it could be a hazard for motorists. They recommended that the refuge be removed if it cannot not be reconstructed to comply with current standards.

FINANCIAL AND ASSET MANAGEMENT IMPLICATIONS

It is proposed that the cost of the removal be funded from the RMS Block Grant (Traffic Facilities component) for the 2018/19 financial year at an approximate cost of $5,000.

CONCLUSION

Concerns have been raised regarding property access due to the presence of an existing non-standard pedestrian refuge island, and based on the recommendation of RMS, it is recommended that the island be removed.
RECOMMENDED

The Local Traffic Committee recommends that Council approves, in Downes Crescent, Currans Hill:

i. the removal of a traffic island adjacent to house No. 36; and
ii. that adjacent consultees are advised of this recommendation prior to works.

ATTACHMENTS

1. Proposal - Downes Crescent, Currans Hill
This is the report submitted to the Local Traffic Committee held on 18 September 2018 - Page 29
PURPOSE OF REPORT

To seek Local Traffic Committee concurrence for the installation of a dashed centreline on Forestgrove Drive, Harrington Park.

BACKGROUND

Community concerns have been raised about excessive vehicle speed along Forestgrove Drive, reinforced by speed data. It is proposed that linemarking is installed to help address this.

MAIN REPORT

Forestgrove Drive is a collector road with a 7.2 metre wide carriageway. The subject site is located between Cameron Circuit and Wingham Avenue. Attachment 1 shows the location.

A traffic count was carried out over a 3-week period to capture vehicular speed and volume on Forestgrove Drive between Cameron Circuit and Wingham Avenue, during school holidays and the school term. Overall speeds have been recorded in excess of the posted 50km/h occurring on this section of Forestgrove Drive with 85 percentile speeds consistently in excess of 60km/h. It is clear from the data that this occurs throughout the week. Outside of the school term, the highest traffic volumes recorded (both directions combined) are around 223 vehicles on Saturday. During the school term volumes increased to around 359 vehicles/hour at 8am. The highest recorded hourly rate is less than the environmental goal of 500 vehicles per hour for collector roads.

Speeding occurs at this section of Forestgrove Drive due to the road being straight, with no side roads or driveways for 190 metres between Cameron Circuit and Wingham Avenue. Due to the narrowness of the road, there are constraints as to what traffic control measures can be utilised. Edge lines are not feasible, nor are chicanes or pinch points. Experience elsewhere is that dashed centreline would provide a clearer delineation through this section of Forestgrove Drive and will result in improved driver responsiveness to the road environment and a reduction in vehicle speed.

Attachment 2 provides details of this proposal.

FINANCIAL AND ASSET MANAGEMENT IMPLICATIONS

It is proposed that the cost of linemarking be funded from the RMS Block Grant (Traffic Facilities component) for the 2018/19 financial year at an approximate cost of $1,500.
CONCLUSION

Concerns have been raised regarding vehicle speeds on Forestgrove Drive and following a full analysis of a traffic count, it is recommended that a dashed centreline be installed.

RECOMMENDED

The Local Traffic Committee recommends that Council approves a dashed separation (S1) centreline on Forestgrove Drive between Cameron Circuit and Wingham Avenue, Harrington Park.

LOCAL TRAFFIC COMMITTEE

SUBJECT: PETER AVENUE, CAMDEN - EXTENSION OF NO STOPPING RESTRICTION

FROM: Manager Traffic, Depot & Building Services
TRIM #: 18/297055

PURPOSE OF REPORT

To seek Local Traffic Committee concurrence for changes to parking restrictions along Peter Avenue, Camden, near Camden South Public School.

BACKGROUND

Concerns have been raised regarding vehicles parking in a manner which compromises traffic flow along Peter Avenue during pick up and drop off periods at Camden South Public School.

MAIN REPORT

Peter Avenue is a local road with variable road width at the rear of the school and connects with Murrandah Avenue at 90 degrees. There are existing No Stopping restrictions around the bend however, there have been concerns regarding sight lines and swept paths when vehicles are parked adjacent to the restriction on the inside curve.

It is proposed to extend the No Stopping restriction 6 metres eastward along the northern side of Peter Avenue.

Consultation was undertaken with affected owners and occupiers and in discussion with the School Principal. One response was received. The response supported the proposal.

FINANCIAL AND ASSET MANAGEMENT IMPLICATIONS

The estimated cost of the recommended work is $200. It is proposed that the cost be funded from the RMS Block Grant (Traffic Facilities Component) for the 2018/19 financial year.

CONCLUSION

Concerns have been raised regarding traffic flow along Peter Avenue, Camden. It is recommended that the Committee supports the proposed parking restrictions.

RECOMMENDED

The Local Traffic Committee recommends that Council approves in Peter Avenue, Camden, the extension of the existing No Stopping (R5-400) restriction on the northern side near Murrandah Avenue, 6 metres eastwards.

LOCAL TRAFFIC COMMITTEE

SUBJECT: AUSTRALIAN RED CROSS BLOOD SERVICE DONORMOBILE VEHICLE - TEMPORARY SUSPENSION OF PARKING BAYS IN 2019

FROM: Manager Traffic, Depot & Buildings Services
TRIM #: 18/288097

PURPOSE OF REPORT

To seek the Local Traffic Committee concurrence for Red Cross Blood Service to park their vehicle for visits in 2019.

MAIN REPORT

The Australian Red Cross Blood Service operates a mobile blood donor service using a large walk-in vehicle and trailer. As per previous years, the Blood Service is proposing to use seven angle parking spaces on the south-west side of the Mitchell Street Car Park (adjacent to Woolworths) to set up the service (see Attachment 1). The dates proposed for the Donormobile visits in 2019 are:

- Visit 1: 2 January to 4 January 2019
- Visit 2: 25 March to 29 March 2019
- Visit 3: 17 June to 21 June 2019
- Visit 4: 9 September to 13 September 2019
- Visit 5: 2 December to 6 December 2019

The vehicle has successfully operated in this location in the past. It is not considered that the proposal would have a significant impact on parking provision or traffic operations in the area. It is therefore recommended that concurrence is given to the application.

RECOMMENDED

The Local Traffic Committee recommends that Council gives concurrence for the temporary suspension of seven parking spaces on the south-west side of the Mitchell Street Car Park, Camden, on the following dates:

- 2 January to 4 January 2019;
- 25 March to 29 March 2019;
- 17 June to 21 June 2019;
- 9 September to 13 September 2019;
- 2 December to 6 December 2019;

Concurrence is subject to the following conditions:

i. the applicant must provide evidence of current Public Liability Insurance, value to $20 million;
ii. the applicant is to notify Council of any variation on the approved date and conditions of approval and obtain a revised approval on this matter;
iii. concurrence is subject to traffic aisles within the car parks being kept clear
at all times for the duration of the mobile blood donor service being set up and operational within the car parks;
iv. concurrence is subject to the applicant advising adjacent businesses of the dates in 2019 when the car park will be utilised by the Blood Service, at least seven days prior to the first visit; and
v. concurrence is subject to the applicant organising, installing and removing all barriers and signs associated with the temporary suspension of parking spaces on the approved dates.

LOCAL TRAFFIC COMMITTEE

SUBJECT: LOCAL BEHAVIOURAL PROGRAMS
FROM:
TRIM #: 18/165228

PURPOSE OF REPORT

To advise the Local Traffic Committee of local behavioural campaigns being undertaken to improve road safety and community safety in the Camden Local Government Area.

BACKGROUND

The Community and Road Safety Action Plan is developed on a yearly basis to provide direction to the Community Road Safety Officer (CRSO). Projects and programs that are implemented in the Camden Local Government Area (LGA) are developed from both research and statistical analysis undertaken.

This report outlines the progress of projects being implemented in the 2018/2019 financial year.

MAIN REPORT

<table>
<thead>
<tr>
<th>Project</th>
<th>Target Issue</th>
<th>Current Status</th>
</tr>
</thead>
</table>
| RBT Plan B Campaign | Drink Driving  
To educate and inform the community about the dangers of drink driving, to influence responsible road safety behaviour, and to work with the Camden LAC to reduce the incidence of drink driving. | CRSO continues to work with Camden Highway Patrol and the Camden Liquor Accord on coordinated approaches to reducing the incidence of drink driving. Information continues to be distributed to licensed premises in order to get the drink drive message across to the community. Mobile Drug Testing is now also a priority, with heightened Police operations being held. |
| Drive 2 Stay Alive – Year 11 Students | Young drivers  
In-school program designed to provide road safety awareness to Year 11 students in Term 3 to reduce the incidence of casualty and fatality crashes in young drivers. The sessions include information about police enforcement, drug and alcohol impairment, licensing and heavy vehicle awareness. | Program roll out has commenced for 2018, with the program being held at Magdalene Catholic HS on 17 August 2018 and Mt Annan Christian College – 31 August 2018, Mt Annan HS on 26 September 2018. Future dates include; Elizabeth Macarthur HS – 19 October 2018, Oran Park Anglican College – 29 November 2018 |

| School Safety Program    | Vulnerable road users, pedestrians, road users around schools <br>
                        | Program designed to address road safety issues around schools, improve safety and education amongst road users, parents and students in school zones. | The School Safety Program continues to work on identifying and improving traffic facilities and driver behaviour around schools. Other engineering and road safety issues have been investigated and actioned as they arise, and as appropriate. CRSO, Rangers and Police target as many of the local primary schools as possible on a regular basis, with a particular focus in the beginning of the school year in order to assist new parents with the road and parking conditions around schools. Schools targeted so far this year include; Mount Annan PS, Narellan Vale PS, Currans Hill PS, Oran Park PS, Leppington PS, Spring Farm and Mount Annan HS Council has emailed all primary schools offering to once again undertake road safety presentations as part of their Kinder Orientation. At this stage Mount Annan Public School, St Paul’s School and Harrington Park Public School have booked. The other primary schools will be followed up. |
| Slow Down                | Speed <br>
                        | Raise awareness and reduce the incidence of speeding on local roads. Work with Camden LAC to further reduce the incidence of speeding. | 50km/hr Slow Down bus shelter advertisements are still in place at identified sites throughout the LGA where the 50 km/hr general urban speed limit applies. CRSO is continuing to work with Camden LAC Traffic Section and Camden Highway Patrol to address speed complaints from residents. CRSO continues to forward any resident speed or traffic complaints to Camden LAC Traffic Services and Highway Patrol for investigation as necessary. |
| Choose Right Buckle Right| Child Restraints <br>
                        | To educate and increase awareness of the importance of correct child restraint use and fitting. To provide free child restraint fitting and checking days to the community. | The last child restraint fitting and checking day was held on 6 September 2018 and this event was fully booked. The next event is scheduled to be held in December 2018. |
| Project                                      | Target Issue                                                                                       | Current Status                                                                                                                                                                                                 |
|----------------------------------------------|--------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------Adam|
| Graduated Licensing Scheme Workshops (GLS)   | Parents and supervisors of learner drivers  
*Educational workshops for parents and supervisors of learner drivers, delivered to assist awareness and knowledge of the graduated licensing scheme.* | Planning for the next session is currently underway. It is envisioned this will be held in partnership with Campbelltown City Council.                                                                                           |
| Log Book Run (LBR) – Drives for Learners In Macarthur | Young drivers  
*Increase on-road experience obtained by learner drivers and disseminate road safety messages and resources* | The last Day Log Book Run was held on Sunday 9 September. The following Day Log Book Run is scheduled for December 2018, and a Dusk Log Book Run event is scheduled for October 2018.. |
| Community Safety Plan                        | General community safety  
*Identify and introduce community safety programs and initiatives in the Camden LGA as appropriate.* | CRSO continues to work on identifying and implementing community safety programs, audits and works as appropriate.  
CRSO continues to work with the Camden Police Crime Prevention Officer to monitor and address community safety issues as they arise. Grant funding through both the State and Federal Community Safety Funds has been applied for, targeting potential areas for enhanced treatments. Grant funding was successful for safety upgrades to Narellan Urban Forest and works in now sitting with Council’s Major Projects team. |
| Park Smart                                   | Community safety, Steal from Motor Vehicle offences                                                | This program will continue to target local shopping centre car parks, plus commuter car parks.                                                                                                                   |
| Camden Liquor Accord                         | Drink Driving, community safety, alcohol related issues  
*Implementing programs and educating the community to reduce the incidence of alcohol related problems, drink driving and antisocial behaviour.* | CRSO continues to work through the Camden Liquor Accord to implement and address community and road safety issues related to alcohol consumption.                                                                      |
| Bike Safety Awareness Program                | Bike safety  
*To promote safe cycling. A bike safety education program aimed to teach best safety practices when riding a bicycle.* | Cycling education and programs are currently being considered, subject to funding availability.                                                                                                                  |
### Project | Target Issue | Current Status
--- | --- | ---
Seniors Safety Morning Teas | Seniors Safety – Pedestrian safety Partnership with Camden Police and Barnes Driving School to promote and educate regarding best practice pedestrian and personal safety and licensing conditions for older drivers | The program has been rolled out to Harrington Park Probus, and planning is currently underway for a roll out to Gregory Hills Probus. Future dates are being worked on in partnership with Council’s Community Project Officer – Seniors.

Graffiti Education | Graffiti prevention, community safety, young people To assist in the reduction of graffiti offences through early intervention education | Council has committed to running this program in schools again in 2018 and 2019. Programming is underway with most schools booked.

Traffic Offenders Program | Driving offenders, speed and drunk driving offenders, general road safety improvement. To reduce the incidents of recidivist driving offences and to educate driving offenders to reduce re-offending. | Both the Smart Driving Program and the PCYC Traffic Offenders Intervention Program (TOIP) continued to be held, with a presentation on “Low Risk Driving” delivered by the CRSO.

The Smart Driving Program runs once per month, and the PCYC TOIP runs bi-monthly. Both programs are conducted on a Saturday.

---

**FINANCIAL AND ASSET MANAGEMENT IMPLICATIONS**

Program funding has been identified in 2018/2019 through Roads and Maritime Services grant funding with a contribution from Council.

**RECOMMENDED**

The Local Traffic Committee recommends that Council receives and notes the Local Behavioural Programs report for September 2018.
i. Bike Plan

Funding applications have been submitted for the 2018/19 program as follows:

<table>
<thead>
<tr>
<th>Location</th>
<th>Project</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cawdor Road, Cawdor – Sheathers Lane to Camden High School</td>
<td>Design of shared path to school and land acquisition</td>
</tr>
<tr>
<td>Waterworth Drive, Mount Annan - Shared path</td>
<td>Design and construction of a shared path from Narellan Road to Mount Annan Leisure Centre</td>
</tr>
<tr>
<td>Stockman's Drift, Mount Annan - Shared path</td>
<td>Design and construction of a shared path to Narellan Road to Stockman’s Drift Reserve</td>
</tr>
</tbody>
</table>

RMS has advised that these applications have been unsuccessful. Projects are currently being scoped for the 2019/20 funding round.

ii. Pedestrian Access Mobility Plan (PAMP)

Funding applications have been submitted for the 2018/19 program as follows:

<table>
<thead>
<tr>
<th>Location</th>
<th>Project</th>
</tr>
</thead>
<tbody>
<tr>
<td>Crookston Drive, Camden South</td>
<td>Design and construction of new pedestrian refuge near retirement village</td>

**RECOMMENDED**

The Local Traffic Committee recommends that Council receives and notes the Permanent Items report for September 2018.
LOCAL TRAFFIC COMMITTEE

SUBJECT: WATERVALE AVENUE, CATHERINE FIELD - SIGNAGE AND LINEMARKING ASSOCIATED WITH THE SUBDIVISION OF 743 CAMDEN VALLEY WAY

FROM: Manager Traffic, Depot & Buiding Services
TRIM #: 18/287545

ELECTRONIC MEETING ITEM DATE: 20 June 2018

PURPOSE OF REPORT

To document approval previously provided by the Local Traffic Committee through an Electronic Meeting for signage and linemarking plans associated with the subdivision of 743 Camden Valley Way, Catherine Field.

MAIN REPORT

A signage and line marking plan has been received by Council for the construction of new roads associated with the subdivision of 743 Camden Valley Way, Catherine Field. The locations are highlighted on Attachment 1. This is related to development application number DA/2016/1249/1. The road on the southwest side of the subdivision has been part constructed as part of the adjacent subdivision.

The Engineering Drawing No. 173-15C-CC-0601, Rev. C prepared by Craig & Rhodes provide details of the proposed signage, linemarking and devices (Attachment 2). The plan is considered to be in accordance with Austroads, Australian Standards and RMS supplements for the placement of regulatory signage and linemarking and it is recommended that LTC supports the proposed measures.

LOCAL TRAFFIC COMMITTEE

SUBJECT: CENTRAL AVENUE, ORAN PARK - SUSPENSION OF ON-STREET PARKING FOR CAMDEN NAIDOC FESTIVAL 2018
FROM: Manager Traffic, Depot & Building Services
TRIM #: 18/288673

ELECTRONIC MEETING ITEM DATE: 26 June 2018

PURPOSE OF REPORT

To document approval previously provided by the Local Traffic Committee through an Electronic Meeting for the suspension of on-street parking in Central Avenue, Oran Park for the 2018 Camden NAIDOC Festival.

MAIN REPORT

Council will be holding the Camden NAIDOC festival on Tuesday, 10 July 2018 at the Oran Park Town Park, adjacent to the Oran Park Library.

NAIDOC is a celebration of Aboriginal and Torres Strait Islander cultures and an opportunity to recognise the contributions and achievements of Indigenous Australians.

As part of this event, Council is proposing to suspend five 15-minute parking bays on the eastern side of Central Avenue (as shown in Attachment 1) to facilitate stall holder and participant parking. This is considered to have minimal impact on on-street parking and it is recommended that the Committee support the proposal.

LOCAL TRAFFIC COMMITTEE

SUBJECT: JADEITE STREET, EMERALD HILLS - REMOVAL OF NO STOPPING RESTRICTIONS
FROM: Manager Traffic, Depot & Building Services
TRIM #: 18/289340

ELECTRONIC MEETING ITEM DATE: 18 July 2018

PURPOSE OF REPORT

To document approval previously provided by the Local Traffic Committee through an Electronic Meeting for the removal of No Stopping restrictions in Jadeite Street, Emerald Hills.

MAIN REPORT

Following a complaint from a resident about parking for Homeworld in Emerald Hills, a review of current on-street kerb side parking restrictions surrounding Homeworld at Emerald Hills was carried out. As a result, it is recommended that the existing No Stopping restrictions on the western side of Jadeite Street be removed to free up some on-street parking spaces for people visiting Homeworld.

In addition, it is also recommended that No Stopping restrictions be installed on Arkenstone Way opposite the Jadeite Street intersection to ensure that the intersection is free from parked vehicles.

Council consulted the proposal with the Developer of Homeworld and they responded in favour of the proposal.

Attachment 1 provides details of the proposal.
