

Submission from Jemma Packer

**Camden Ambulance Station – 30 October 2020 @18:30hrs**

Paranormal Investigators came to the Ambulance station to discover why we were experiencing unexplained activity at the station and asked the spirits to leave or please stop as it was affecting the paramedics who work there.

There was the spirit of a little girl and an older woman. The little girl left when they asked but the older woman refused. I must say, there have been no more reports of unusual goings on since they came.
